

Why use hose reels?

Why use hose reels? Because they make hose handling more efficient and safer. Your hoses, cables and cords will last up to five times longer. You will improve hose management, which decreases labor costs. Your chances of injuries from tripping

hazards will decrease, which saves lost work time, medical bills and higher insurance. You also save the expense and time to replace expensive hoses, cables and cords that get run over by fork lifts and other vehicles.

Series TW7000

Five reasons why hose reels add value

Improve efficiency
Hoses, cable and cords are where you want/need them.

Increase safety
Reduce tripping accidents and lost work time.

Minimize leakages
Reduce costs of air and water leakages.

Reduce hose wear
Hose and cord on reels can last up to five times longer.

Increase productivity
No more tangled hoses improves efficiency.

OSHA says reduce your trips and falls

"There are many situations that may cause slips, trips and falls. The controls needed to prevent these hazards are usually obvious, but too often ignored, such as... coiling up extension cords, lines and hoses when not in use and keeping electrical and

other wires out of the way." OSHA's "Fall Prevention Tips" include, "Practice good housekeeping. Keep cords, welding leads and air hoses out of walkways or adjacent work areas."
